

Standard Colors:

Plascore currently has several standard colors that are available for use on extrusions and panels.

Shell White (Conductive Panels)
Designer White (Conductive Panels)
Polar White (Polyester Panels)
Driftwood Grey (Conductive Panels)

Custom Colors:

Plascore can also match custom colors. With our large in-house painting capabilities and our stringent Quality color matching technology (which can check color, gloss, thickness and conductivity), we can match any color chip. Please contact Plascore for more information and minimum requirements.

Please contact Plascore for the latest inventory of colors and actual color samples.
